How do I log in to the Smart Home app?	<ul style="list-style-type: none"> ▪ The Unifi Smart Home app offers a simplified login process using your existing Google or Apple account. <ol style="list-style-type: none"> a) Download the app from the Google Play Store, Apple App Store or Huawei AppGallery. b) Open the Unifi Smart Home app on your mobile device. c) On the login screen, accept the user agreement and select "Sign in with Google" or "Sign in with Apple." d) You'll be securely redirected to Google or Apple's login page to authorise the app. e) Follow the on-screen prompts to complete the login. You may need to enter your password and approve a Two-Factor Authentication (2FA) request on a trusted device. f) Once authorised, you'll be redirected back to the Unifi Smart Home app and logged in successfully.
2.	How many devices can be linked to the same account for login?	<ul style="list-style-type: none"> ▪ Only one (1) device can be logged in with a single account at any given time. If the same login ID is used on another device, the first device will be automatically logged out.
3.	I'm unable to log in because I'm not receiving the Two-Factor	<ul style="list-style-type: none"> ▪ This may happen when using Google or Apple login, usually due to your device settings or a temporary network issue. Please try the following steps:

	Authentication (2FA) request.	<ul style="list-style-type: none">a) Check your internet connection: A stable Wi-Fi or mobile data connection is required to receive the 2FA prompt.b) Try an alternative sign-in method: If the prompt doesn't appear, look for an option like "Try another way" on the login screen. You may be offered options such as:<ul style="list-style-type: none">i. Receiving a verification code via SMS to your registered phone number.ii. Using backup code saved when you first set up 2FA.iii. Using code from an authenticator app (e.g. Google Authenticator).c) Check that you're signed in on your device: Ensure that you're already signed in to your Google account or Apple ID on the device you're using. 2FA prompts are only sent to trusted devices.d) Check your notification settings: Go to your phone's notification settings and ensure that system notifications for Google Play Services (on Android) or Apple ID (on iOS) are enabled. Also check that your phone is not in "Do Not Disturb" mode.e) Update your device's software: Make sure your phone's operating system (OS) and relevant apps (e.g. Google Play Services, etc.) are up to date, as outdated software may affect prompt delivery.																																																																			
4.	What should I do if my phone is lost or stolen and I can't receive the Two-Factor Authentication (2FA) prompt?	<ul style="list-style-type: none">▪ If you've lost access to your primary device, you'll need to use one of the backup methods set up during your 2FA activation. These may include:<ul style="list-style-type: none">• A trusted phone number to receive a verification code via SMS• Backup codes saved during 2FA setup▪ For recovery:<ul style="list-style-type: none">• Google users – Visit the Google account recovery page• Apple users – Visit the Apple ID account recovery page																																																																			
5.	How many members can I add?	<ul style="list-style-type: none">▪ You can add up to 20 members to a single home setup: 1 <i>Homeowner</i> and 19 <i>Administrators/Common Members</i>. Each member must be assigned a role.▪ Refer to the table below for a breakdown of user roles: <table><tr><th rowspan="2">User Rights</th><th colspan="3">User Roles</th></tr><tr><th>Owner</th><th>Administrator</th><th>Common Member</th></tr><tr><td>Create home</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Remove home</td><td>Yes</td><td>-</td><td>-</td></tr><tr><td>Add member</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>Change member role</td><td>Yes</td><td>-</td><td>-</td></tr><tr><td>Add device</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>Modify device settings</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Remove device</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>Create automation tasks</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>Modify automation tasks</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>Remove automation tasks</td><td>Yes</td><td>Yes</td><td>-</td></tr><tr><td>View live view</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Download event recording</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Delete event recording</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Delete event message (individual user account)</td><td>Yes</td><td>Yes</td><td>Yes</td></tr><tr><td>Bind and unbind cloud storage</td><td>Yes</td><td>Yes</td><td>Yes</td></tr></table>	User Rights	User Roles			Owner	Administrator	Common Member	Create home	Yes	Yes	Yes	Remove home	Yes	-	-	Add member	Yes	Yes	-	Change member role	Yes	-	-	Add device	Yes	Yes	-	Modify device settings	Yes	Yes	Yes	Remove device	Yes	Yes	-	Create automation tasks	Yes	Yes	-	Modify automation tasks	Yes	Yes	-	Remove automation tasks	Yes	Yes	-	View live view	Yes	Yes	Yes	Download event recording	Yes	Yes	Yes	Delete event recording	Yes	Yes	Yes	Delete event message (individual user account)	Yes	Yes	Yes	Bind and unbind cloud storage	Yes	Yes	Yes

6.	How do I share my Smart Home devices with another user?	<ul style="list-style-type: none">▪ The invited user must download and sign up for the Unifi Smart Home app.▪ The homeowner will need to obtain the Account ID from the other user. They can find this by going to the "Me" tab > tap the "Settings" icon (top right) > select "Account and Security" > press and hold to copy their Account ID.▪ The homeowner can add another user by entering their name and Account ID.																																																																			

		<ul style="list-style-type: none"> The invited user will receive a notification. To accept the invitation, they must go to the “Me” tab and look under “Home Management” for pending requests.
7.	Why am I unable to add a member to my home and receiving the error: ‘Unable to add the account. Verify the account info and try again’?	<ul style="list-style-type: none"> The person you’re trying to add must download and sign up for the Unifi Smart Home app to become a valid user. Ensure they’ve followed the steps correctly to find and share their Account ID with you.
8.	What are the minimum requirements to install the Unifi Smart Home app?	<ul style="list-style-type: none"> The app requires a mobile device running: <ul style="list-style-type: none"> iOS 11 or later Android 6 or later <i>Please note: If the app isn’t appearing in the Apple App Store or Google Play Store, it may be due to your device no longer being supported under Apple or Google’s latest policies.</i>
9.	What should I do if the app keeps crashing?	<ul style="list-style-type: none"> App crashes may occur due to outdated data or device issues. Try the following steps: <ol style="list-style-type: none"> Clear the app’s cache. Force close and reopen the app. If the issue continues, uninstall and reinstall the app. Ensure you have a stable internet connection.
10.	What should I do if the app is running slowly?	<ul style="list-style-type: none"> You’ll need to clear the app’s cache; force close the app and then reopen it. If the issue continues, try to uninstall and reinstall the app. Ensure your mobile device has a stable internet connection.
11.	How do I get the latest firmware for my device?	<ul style="list-style-type: none"> Firmware updates are delivered automatically to your device. You’ll receive a notification once an update is available. To enable automatic updates, go to “Device Settings” > “Device Update” and turn on “Auto Upgrade”. Make sure notifications are enabled on your device so you don’t miss important updates.
12.	How do I stop receiving notifications?	<ul style="list-style-type: none"> You can disable notifications for specific devices directly from within the app: <ol style="list-style-type: none"> Tap on the device (e.g., Contact Sensor). Go to “Settings”. Turn off the relevant detection alerts. Alternatively, you can turn off all app notifications via your phone’s system settings. <p><i>Please note: We don’t recommend disabling all notifications, as it defeats the main purpose of your Smart Home system — providing real-time alerts and security updates for your home and devices. For the best experience, customise your notifications in-app to only receive the alerts that matter most to you.</i></p>
13.	Why can’t I see my list of Smart Home devices?	<ul style="list-style-type: none"> Make sure you’ve selected the correct virtual home in the app. Tap the home management selection at the top left of the home screen. Then go to the “All Devices” tab to view your paired devices. If a device isn’t paired yet, you’ll need to pair it first. If already paired, pull down the screen to refresh.

		<ul style="list-style-type: none"> You should also try clearing the app's cache, force-closing the app, and checking your network connection.
14.	Why is my device showing offline?	<ul style="list-style-type: none"> First, ensure your smart device is switched on and properly connected. Then, check your Wi-Fi connection using a speed test. If Wi-Fi is working, try restarting the device and then pull down the app's main screen to refresh. If the issue continues: <ul style="list-style-type: none"> Android: Clear the app's cache, force it close and reopen the app, and ensure your mobile network is working. iOS: Force close and reopen the app, and ensure your mobile network is working. If your Wi-Fi isn't working, please refer to Unifi's home troubleshooting guide.
15.	Why can't I connect to my MESH Wi-Fi?	<ul style="list-style-type: none"> Move near the MESH unit and connect your smartphone to your Unifi Home Broadband SSID. Run a speed test to check for internet connectivity. <ul style="list-style-type: none"> If there's no internet, proceed with standard Unifi Home troubleshooting. If internet is available, try to restart your Smart Home device, restart the MESH unit or reset the Smart Home device and re-pair it.
16.	Why is my device not receiving AI Detection alerts?	<ul style="list-style-type: none"> Ensure AI Detection is enabled in the app settings for the specific device. For cameras, go to <i>"Settings"</i> (the three-dot icon) > <i>"Detection Alarm Settings"</i> to enable it and receive the notifications alert. <ul style="list-style-type: none"> Indoor Camera: Pet Detection, Sound Detection, Motion Detection. Outdoor Camera: Vehicle Detection, Human Detection. For motion sensors, go to the menu in the settings and adjust the Passive Infrared (PIR) sensitivity accordingly.
17.	How do I check the signal strength of my Zigbee devices?	<ul style="list-style-type: none"> Open the app and select your Smart Hub device. Go to <i>"Zigbee Sub-Device"</i> and tap the three-dot icon next to the desired sensor. Select <i>"Device signal detect"</i> and follow the on-screen instructions.
18.	Why isn't the Pan/Tilt function working?	<ul style="list-style-type: none"> The Pan/Tilt feature is only supported by the AI Indoor Camera. In the app's camera view, expand the bottom tab to find the directional controls. To enable automatic tracking, make sure <i>"Motion Tracking"</i> is enabled in the device settings. <ul style="list-style-type: none"> Viewing angle: 102° Rotation angle: Pan 0° – 355°; Tilt -10° ~40°
19.	What are the recommended speeds for video streaming?	<ul style="list-style-type: none"> To ensure smooth streaming, check your Wi-Fi connection speed on your 2.4GHz Wi-Fi SSID or Unifi Home SSID at the camera's location. The recommended minimum speeds are: <ul style="list-style-type: none"> Indoor Camera (HD): 3 Mbps Indoor Camera (SD): 1 Mbps Outdoor Solar Camera (HD): 4 Mbps Outdoor Solar Camera (SD): 2 Mbps

20.	Why is my video streaming poor?	<ul style="list-style-type: none"> Start by checking your Wi-Fi connection speed. If the speed is low, try switching the camera's streaming quality from HD to SD in the device's settings. You may also need to move the camera closer to your router or MESH unit to improve the signal.
21.	Why is my cloud storage missing?	<ul style="list-style-type: none"> This may happen if: <ul style="list-style-type: none"> You (or another user) changed houses (home profile) in the app. The device was removed from the current home. The account login ID was changed. Any of these actions will remove access to previously recorded videos.
22.	Why can't I see my cloud recordings?	<ul style="list-style-type: none"> Check that the AI detection settings are properly configured and enabled for the device in the app. <ul style="list-style-type: none"> If no events are detected, no clips will be uploaded. For cameras, check the "<i>Detection Alarm Settings</i>" in the device's settings. Continuous recording is only available via microSD card. If you've enabled this, recordings must be viewed directly from the microSD card, not the cloud playback section of the app.
23.	How does recording work on the app?	<ul style="list-style-type: none"> Recordings are stored automatically in the app based on your device settings. You can view, play back and download the recordings directly from the app.
24.	Why is my Automation Scene failing?	<ul style="list-style-type: none"> Open the "<i>Scene</i>" tab in the app. Ensure all devices involved in your "<i>Automation</i>" or "<i>Tap-to-Run</i>" scene are online. Check the logic or trigger for the automation to ensure they are configured correctly.
25.	Is my existing TP-Link or Tapo smart home device compatible with the new Unifi Smart Home app?	<ul style="list-style-type: none"> No. The new Unifi Smart Home app is designed exclusively for use with the latest range of Unifi Smart Home devices. Any existing smart home devices from TP-Link or Tapo that you previously purchased are not compatible and cannot be managed using the Unifi Smart Home app. These devices must continue to be managed via the separate Tapo app.
26.	Is the Unifi Smart Home app compatible with all types of devices, including tablets?	<ul style="list-style-type: none"> Yes, the Unifi Smart Home app is designed to be compatible with both smartphones and tablets that meet the minimum OS requirements: iOS 11 and above / Android 6 and above (except for Samsung Tablet). <ul style="list-style-type: none"> Workaround: To use the app on this specific tablet model, please ensure your device is locked to Portrait Mode. You can do this by going to your tablet's Settings > Display (or Rotation settings) and either turning off Auto-Rotate or explicitly setting the screen to Portrait.
